

Studying the HNO₃-Ice Surface Interaction Using Measurements Made in a WB-57F Contrail

R.S. Gao, P.J. Popp, T.P. Marcy, D.W. Fahey, E.C. Richard, and T.L. Thompson

NOAA Aeronomy Laboratory

B. Kärcher, Institut für Physik der Atmosphäre, DLR Oberpfaffenhofen, Germany

D. Baumgardner, Centro de Ciencias de la Atmósfera, Universidad Nacional Autónoma de México

B. Anderson, NASA Langley Research Center

B.A. Ridley, A. Weinheimer, D. Montzka, D. Knapp

National Center for Atmospheric Research

R.L. Herman, Jet Propulsion Laboratory, California Institute of Technology

E. Weinstock and S. Wofsy, Harvard University

P.T. Bui, NASA Ames Research Center
